

4TH JUNE: STRENGTHENING LOCAL LEADERSHIP AND SYSTEMS FOR CONTINUED CHILD PROTECTION

UNICEF/El Baba

2025 Annual Meeting

3–5 June 2025

The second day of the Annual Meeting will deepen our exploration of the meeting theme with a focus on strengthening local and national actors, child protection systems, and the financing needed to sustain this work. The day will begin with two sessions from the Alliance's Case Management and CAAFAG Task Forces, highlighting how these technical areas are advancing locally led approaches that respond to today's humanitarian realities. A networking session on the meeting theme will follow, offering participants an opportunity to share experiences and connect around common challenges. The programme will then turn to the critical issue of funding, starting with a session on the

localisation of financing for child protection, followed by a dedicated discussion on donor perspectives and the future of financing in the sector. The day will conclude with two thematic sessions: the first exploring local leadership in the prevention of recruitment and gender-based violence, and the second examining strategies to strengthen child protection systems through a range of entry points.
