

5TH JUNE: PREVENTING A ROLLBACK ON CHILD PROTECTION STANDARDS AND HUMANITARIAN PRINCIPLES

UNICEF/Willocq

2025 Annual Meeting

3–5 June 2025

The final day of the Annual Meeting will centre on standards and principles in child protection. The day will begin with an in-depth session on working with local actors to support LGBTQI+ children and their families. This will be followed by a French-language session on engaging a range of local actors to strengthen systems, accountability, and local-to-global action, and a French-language networking session. The afternoon will open with a session on child and community co-creation and implementation of accountability mechanisms and tools. This will be followed by contributions from the Alliance's CPMS Working Group and UASC Task Force, highlighting key

technical areas within the meeting theme. The day—and the meeting—will conclude with reflections from diverse perspectives on the theme, and participant inputs on the way forward.
